

Marys River Watershed

Existing Conditions 1990

Wetlands larger than .5 hectares

Map is based on data developed by the Pacific Northwest Ecosystem Research Consortium for the Willamette Basin. Its intended use is to identify broad-scale patterns; estimates for individual sites may be in error. For further information, contact Joan Baker, USEPA (Baker.Joan@epa.gov) or Patti Haggerty, Indus Corporation (Haggerty.Patti@epa.gov)
